

ENVIRONMENTAL ASPECT, IMPACT & RISK ASSESSMENT

ENHANCE AND IMPROVE YOUR ENVIRONMENTAL PERFORMANCE

26th November 2020 (Thursday), 9.00am – 5.00pm
KSL HOTEL & RESORT JOHOR BAHRU, JOHOR

The organization or industries are required to determine and evaluate their environmental aspect and issues which the elements of their processes/ activities that interact with the environment and cause adverse or beneficial impact to the environment, such as air pollution, water pollution, soil contamination, climate change, and etc. During the evaluation process, significant impact and risk arising from the environmental aspect are determined. Further control measure and corrective action shall be taken to prevent or reduce/ mitigate the aspect and impact to the environment.

OBJECTIVES

Participants will benefit from this training by being able to:

- Understand and determine the environmental aspects from the organization's processes/activities and its impact to the environment.
- Carry out the risk evaluation and assign risk rating
- Determine and assess the risk arising from environment aspects and impacts.
- Implement operational control to enhance and improve its environmental performance and to prevent or reduce the impacts to the environment and risks to the organization.
