

INTRODUCING

OSR

New waterproof water treatment instrument:

Portable Dissolved Oxygen (DO) meter

with classification of waterproof IP67 & shockproof design; comes with case, membrane cap, DO Electrolyte & electrode.

Suitable for field of monitoring under rugged environment & underwater works.

Able to test the dissolved oxygen in water, which used in aquaculture, water treatment, environmental monitoring, river regulation & so on

Item Code:
OSR-DO01

FEATURES:

- ★ IP67 Waterproof, Shockproof & Dustproof
- ★ High Accuracy, Data Hold & Auto Power-off
- ★ Restore Factory Default & Replaceable Electrode

PARAMETERS:

| Test item | Measuring range | Resolution | Accuracy | Other Technical data |
|------------|--------------------------|------------------|--------------------|---|
| Saturation | 0-199.9% | 0.1 | ±1.5% F.S | ATC: 13-122°F or 0-50°C |
| DO | 0-19.99mg/L | 0.01 | ±1.5% F.S | 2*AAA 1.5V battery |
| Temp | 0.0-50.0°C (32-122°F) | 0.1°C (0.1°F) | ±0.5°C (±0.9°F) | Working condition: 32-122°F (0-50°C) 2 points calibration |
