ISO 14001 Environmental Management System specifies the requirements for an environmental management system that an organization can use to enhance and improve its environmental performance through more efficient use of resources and reduction of waste, to prevent or reduce impact to the environment and thus gaining a competitive advantage and the trust of stakeholders. Besides, ISO 14001 Environmental Management System benefits to:

- Demonstrate compliance with current and future statutory and regulatory requirements
- Increase leadership involvement and engagement of employees
- Improve company reputation and the confidence of stakeholders through strategic communication
- Achieve strategic business aims by incorporating environmental issues into business management
- Provide a competitive and financial advantage through improved efficiencies and reduced costs
